HPD UNIQUE IDENTIFIER: 812716286976
HPD UNIQUE PRODUCT ID: Not provided.
CLASSIFICATION: 03 21 00 Reinforcement Bars
PRODUCT TYPE: Reinforcement Components, Steel Bars
PRODUCT DESCRIPTION: This HPD covers following five products from Commercial Metals Company: Concrete Reinforcing Bar (Rebar), Merchant Bar, Wire Rod, CryoSteel®, and ChromX®. Rebar provides the tensile strength that reinforces concrete, making it a vital component of roads, buildings, and infrastructure worldwide. CMC is the nation’s largest producer of rebar. Its Merchant Bar Quality (MBQ) products are offered in a range of shapes and grades, suitable for multiple applications. Wire Rod is a hot-rolled round steel produced in coil form, commonly drawn into wire for further use. CryoSteel® is an advanced cryogenic reinforcing steel designed for extreme cold environments, while ChromX® is a scientifically engineered, uncoated steel with exceptional corrosion resistance. All five products are available in various sizes and grades, and can also be custom fabricated to meet specific project requirements.

Section 1: SummaryBasic Method / Product Threshold

CONTENT INVENTORY

Inventory Reporting Format	Residuals/Impurities Evaluation	For all contents above the threshold, the manufacturer has:
→ Basic Method	→ Completed	
Threshold Disclosed Per	Explanation(s) provided :	Characterized
→ Product	Yes	Provided weight and role.
Threshold Level		Screened
→ 100 ppm		Provided screening results using HPDC-approved methods.
		Identified
		Provided name and CAS RN or other identifier.

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

INVENTORY AND SCREENING NOTES:

This HPD has been prepared using a Basic Inventory method with a product threshold of 100 ppm. The content inventory includes ranges to encompass five steel products by Commercial Metals Company: concrete reinforcing bars (rebars), merchant bar, wire rods, cryosteel, and ChromX. This inventory is based on the metallurgical evaluations of the products and the full range of grades available for each.

VOLATILE ORGANIC COMPOUND (VOC) CONTENT

VOC Content data is not applicable for this product category.

COMPLIANCE See Section 3 for additional listings.
VOC emissions: Inherently non-emitting source per LEED

CONSISTENCY WITH OTHER PROGRAMS

Pre-checked for LEED v4 Option 1.
Pre-checked for LEED v4.1 Option 1.
Pre-checked for LEED v5 Human Health 1.

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 3.0, available on the HPDC website at: www.hpd-collaborative.org/hpd-3-0-standard

STEEL BAR & ROD PRODUCTS

PRODUCT THRESHOLD: 100 ppm RESIDUALS AND IMPURITIES EVALUATION COMPLETED: Yes

RESIDUALS AND IMPURITIES NOTES: The inventory is based on the company's metallurgical analyses of the products by grades. Complete formulation disclosures were provided, including residuals and impurities, down to a 100 ppm threshold.

SUBSTANCE NOTES:

Section 3: Compliance

This section lists applicable certification and standards compliance information for VOC emissions and VOC content. Other types of health or environmental performance testing or certifications completed for the product may be provided.

VOC EMISSIONS	Inherently non-emitting source per LEED	
COMPLIANCE TYPE: Self-declaration	ISSUE DATE: 2025-12-03	EXPIRY DATE: No expiration
CERTIFIER/VERIFIER/TESTING LAB/AUDITOR: None		
COMPLIANCE DETAILS:		
COMPLIANCE SCOPE:		
APPLICABLE FACILITIES: All		
COMPLIANCE URL:		
COMPLIANCE NOTES: Metals—including powder-coated, plated, or anodized metals—are inherently non-emitting sources of VOCs, according to LEED® v4.		

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

No accessories are required for this product.

Section 5: General Notes

CMC is the largest producer of rebar in the US, operates nine state-of-the-art electric arc furnace (EAF) mini and micro mills across the nation, and uses recycled metal in the mills. CMC's merchant bar quality (MBQ) products include equal and unequal angles, channels, flats, rounds, squares and other special shapes and are produced at the steel mills in Alabama, Arizona, South Carolina and Texas. Wire rods are produced in Florida for use in a wide variety of construction and industrial applications. CryoSteel® is produced exclusively at CMC's Arizona micro mill. ChromX® products are available with varying levels of corrosion resistant grades.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard is not:

- a method for the assessment of exposure or risk associated with product handling or use,*
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
