Managing Your Business Just Got Easier

CMC is committed to providing the highest level of customer service in the industry. At CMC, we understand that real-time information is critical for managing your business effectively.

Built by the customer, for the customer, myCMC is a web-based customer portal built on **your** feedback that provides instant access to information important to you.

mycm.cmc.com is your link to make business **easy**.

Don't have access to myCMC? Getting it is simple! Request access online at cmc.com, contact your sales rep or email the team: ecommerce@cmc.com.

We're CMC. You'll find our products strengthening and reinforcing the infrastructure nearly everywhere on the planet – in sports stadiums and public buildings as well as highways, bridges, railways and other structures. To serve this global market, CMC maintains facilities across the United States, Europe and Asia. These sites include everything from local recycling centers, steel mini-mills and micro-mills to large-scale fabrication centers, heat-treating facilities as well as other operations. cmc.com

Systems Integration

What is Systems Integration?

Systems Integration refers to capabilities to link or integrate partner systems with data transmissions by electronic means.

- Transfer of electronic documents or business data between customers and suppliers without human intervention
- Multiple technologies supported including EDI, API, .CSV, XML, flat files, or custom formats

Who uses Systems Integration?

Customers and Suppliers who value automation to support increased efficiency, accuracy, and ease of doing business.

Why use Systems Integration?

To conduct the most efficient, productive processes possible.

- Customize data feeds and remove manual entry and processing
- Reduce handling costs of sorting, distributing, organizing, and searching paper
- Store and index data electronically without the cost of manual entry
- Reduce errors and the need to rekey or scan documents
- Increase SPEED of receiving data and information into systems thus reducing process cycle times

What processes are supported by Systems Integration?

CMC supports systems integration throughout the Quote-To-Cash process with the following:

- Inventory Status
- Pricing data
- Purchase Order Placement
- Purchase Order Acknowledgement
- Shipping Data for Inventory Receipt (ASN)
- MTR Data for cataloging mill certs
- Electronic Billing for Accounts Payable
- Remittance Advice and Payment
- Customer Inventory Advice
