

## Certificate of Compliance

I have the authority to legally bind CMC and do hereby certify the following for all Reinforcing Steel (Rebar) produced by CMC:

- Complies with the latest version of the applicable ASTM A615, A706 (both also known as AASHTO M31), or A1035. Steel is produced under the latest revision of the plant Quality Manual at the time of manufacture. CMTR's generated by the listed locations are EN10204:2004 3.1 compliant and are DFARS compliant
- 100% melted and rolled in the United States of America, is fully killed, and contains no weld repair.
- Complies with the "Buy America" provision of the Surface Transportation Assistance Act of 1982, Section 1605 of the American Reinvestment and Recovery Act, American Iron and Steel provision of P.L 113-76, Consolidated Act, 2014, all requirements of 49 CFR 661 and 23 CFR 635.410, and the Build America Buy America Act (BABA) that was enacted as part of the Infrastructure Investment and Jobs Act of 2021. BABA supersedes all prior existing Federal Legislation regarding "Buy America" and "Buy American"
- Complies with the Buy American provisions of 48 CFR 55.225-11, 49 USC 50101, and FAR 52.225-9 (2014)
- Contains no mercury contamination, no Living Building Challenge Red List materials. No substances subject to the RoHS 3 directive are deliberately added, nor do any residual concentrations exceed the tolerances set forth in the RoHS 3 Directive. No Conflict minerals are intentionally added to our products, and any residual concentration is solely the result of the nature of using recycled scrap metal as our primary iron source.
- The following Steel Producer (Mills) locations are covered by this certification:
  - Birmingham, AL
  - Cayce, SC
  - Durant, OK
  - Jacksonville, FL
  - Knoxville, TN
  - Magnolia, AR
  - Mesa, AZ
  - Sayreville, NJ
  - Seguin, TX
